

Message from the President

We are proud to engage in the food business and aim to become an attractive company that creates infinite value.

Our company is an important part of the Sojitz Group and plays a key role as a food trading company. We need to be flexible and adapt to the constantly changing business environment. To grow continuously, we must not be afraid of change and actively seek new opportunities.

We see different risks and changes as chances to improve. By focusing on the market, working together inside and outside the company, and acting quickly, we aim to gain a competitive edge and grow our business. We will keep changing our organization and people to create lasting value.

Together with our customers and business partners, we will find new supply sources, improve our food procurement, product development, manufacturing, and logistics functions. Our mission is to provide the necessary goods and services where they are needed. As a company that handles food, we also recognize the importance of ensuring food safety and security. Our quality control department ensures food safety by managing quality and compliance in our factories and building a proper governance system.

We are proud to work with customers and business partners around the world, including Japan, in the food industry. With passion, we aim to be an attractive company that creates infinite value.

Yutaka Koizumi
President
Sojitz Foods Corporation
